

Specifier/End User Registration and access to specifications, submittal packages, operator manuals, operator software and more

www.hysecurity.com

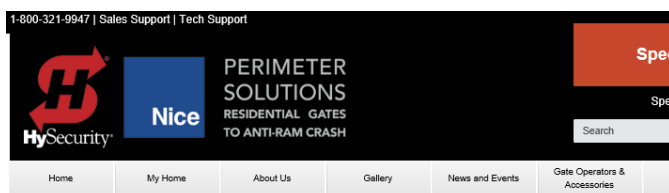

Click on Specifier red box

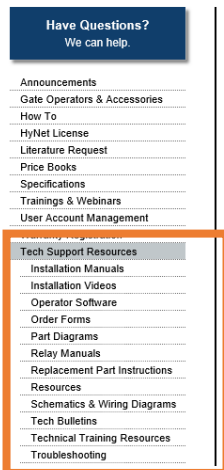

Click on Register Now button.

Complete registration and be sure you enter an email you can open right away. Click on the validation in email and it will return you to this page. Enter your email and password and logon.

Note: check spam folder if you do not see email right away.

Click on the Left Column Navigation and open the Tech Support list. Then click on Installation Manuals. Also check the Operator Software to make sure you have current software on your operator.

Technical Support

Find what you need

Have a question? Need technical help?

Contact your HySecurity distributor for answers to your support questions. If you still have a question via the form below or call 800-321-9947.

Tech Support will contact you during business hours - 6:30 a.m. to 4 p.m. PST.

Form for sending a message to technical support with a dropdown menu and a text input field.
